Mike, as always a pleasure to see you this morning and taking care of the ant issue here at Leon Plastics. The e-mail is to serve as notice of satisfaction with your company's service and professionalism. There is no better example of this than your employee Mike Gade. I have found Mike to be very thorough in explaining the issues at hand and implementation of solutions concerning pest control.

Mike is also very pleasant to talk to and is always courteous to everyone in the facility. As you are aware I'm the buyer and in charge of selecting who we award the business to in this area. Rest assured that the standards that have been presented by Mr. Gade and yourself, has basically given me no reason to review any other pest control company for the services that you render here at Leon Plastics.

Also feel free to use this e-mail as a reference if you wish in presenting to companies in which you are trying to get business awarded to you. I would also be willing to talk to them personally if required. Thanks again!!!

Respectfully yours,

Peter Stalzer
