

Air Fresheners

Professional Pest Management has added an Odor Control System to complement our service programs.

To complement our monthly customers we are offering air fresheners. These are great small, attractive dispensers. They work great to cover odors in restrooms or in any area that unpleasant smells may be present.

Professional Pest Management will install the dispensers for maximum efficiency on our regular scheduled service pest inspection and service, monitor and change the dispensers as needed.

The initial charge is very competitive.

The monthly charge for each dispenser is \$6.00 a month.

Air Purifiers

For several years Professional Pest Management has provided Ionic Purifier with a built in Sanitizer. These attractive units are built with solid wood cabinets on stainless steel construction. They will reduce sources of discomfort which contribute to allergies, hay fever and other types of airborne irritation.

The Ionic Purifier clears air of:
 Pollen Mold Spores
 Tobacco Smoke Household Dust
 Pet Dander Dust Mite Dust

The O3 Sanitizer will attack and eliminate odors from:

Pets	Cooking
Carpets	Tobacco
Mold & Mildew	Musty Closets
Damp Basements	Autos & Boats
Rec Vehicles	Bedrooms & Baths
Smoke Damage	Water Damage
Viruses & Fungi	Remodeling
Rodents	

These fantastic Lightningair units are totally portable. Plug them in and start enjoying clean air for just pennies a day.
